Norwich Cathedral. This beautiful edifice dates from 1096 but the principal parts were built from 1200 to 1480. It suffered much from fire at different times and also at the hands of Parliamentarians. From 1662 to 1750, and also of recent years, restorations were carried out. The Nave is one of the most magnificent in the country, and is 250 feet long, 72 feet wide, and 72 feet high. The total length of the Cathedral is 407 feet, and the height of the Tower and Spire 315 feet.

Norwich Cathedral: This beautiful edifice dates from 1096 but the principal parts were built from 1200 to 1430. It suffered much from fire at different times and also at the hands of Parliamentarians. From 1862 to 1750, and also of recent years restorations were carried out. The Nave is one of the most magnificent in the country, and is 250 feet long, 72 feet wide, and 72 feet high. The total length of the Cathedral is 407 feet, and the height of the Tower and Spire 815 feet. The Cloisters are remarkable for their beauty, and the interior contains many interesting monuments.
